RISG n. 3

• Proposal for a fast method to determine routinely 15 plasticisers in olive oil by liquid extraction and Ultra High-Performance Liquid Chromatography Heated Electro Spray Ionisation High Resolution Mass-Spectrometry (Orbitrap) analysis	169
• Effect of oil type and concentration on solid fat contents and rheological properties of watery oleogels	177
• Determination of fatty acid, tocopherol content and total phenol of nine selected Chinese walnut genotypes	187
• Fatty acids, sterols and triglycerides composition of cold pressed oil from pomegranate seeds	197
• The effects of processing methods on polyphenol content of some Turkish black table olives	205
• Short note - Assessment on seed oil percentage and physicochemical properties of watermelon (<i>Citrullus lanatus</i>)	217
• Nota Breve - Il nuovo Regolamento UE 1322 sui tenori massimi di 3-MCPD, relativi esteri e glicidil esteri degli acidi grassi	223
• Notiziario – Libri, Congressi, Novità in OCL Oil-seeds and fats, Crops and Lipids	227

RISG n. 4

SPECIAL ISSUE - THE OLEUM VISION TO PROTECT OLIVE OIL QUALITY AND AUTHENTICITY <i>Editoriale</i>	245
Regulatory framework analysis, update and implementation	
• Emerging trends in olive oil fraud and possible countermeasures	252
• Olive oil quality and authenticity: a review of current eu legislation, standards, relevant methods of analyses, their drawbacks and recommendations for the future	255

ARTICOLI PUBBLICATI

RISG n. 1

• Controllo fitosanitario e qualità degli oli di oliva in areale invaso da <i>Bactrocera oleae</i>	5
• Application of Fourier Transform Mid-Infra-Red Attenuated Total Reflectance (FT-MIR-ATR) for the authentication of Maltese extra virgin olive oil	15
• Edible films and coatings based on chitosan with essential oils for anti-microbial food packaging application	27
• Correlation and path coefficient study of soybean yield and seed quality traits	39
• Volatile components and biological activities of <i>Pulicaria</i> essential oils. A review	49
• Nota breve - Analisi dei residui di fitofarmaci mediante UHPLC-MS. Indagine conoscitiva dei prodotti alimentari presenti sul mercato	59
• Notiziario	69

RISG n. 2

• Antioxidant Activities of Silver and Iron Nanoparticles of <i>Psephellus pyrrhoblepharus</i> (Boiss) Wagenitz	85
---	----

Analytical solutions addressing olive oil quality issues

- Alignment and proficiency of virgin olive oil sensory panels: the oleum approach 260
- Performance testing of new artificial olfactory reference materials in virgin olive oil sensory assessment 263
- Peer inter-laboratory validation study of a harmonized SPME-GC-FID method for the analysis of selected volatile compounds in virgin oils 266
- Collaborative peer validation of a harmonized SPME-GC-MS method for analysis of selected volatile compounds in virgin olive oils 270
- An HS-GC-IMS method for the quality classification of virgin olive oils as screening support for the panel test 274
- Flash gas chromatography in tandem with chemometrics: a rapid screening tool for quality grades of virgin olive oils 277
- Supporting the sensory panel to grade virgin olive oils: an in-house-validated screening tool by volatile fingerprinting and chemometrics 280
- Assessment of virgin olive oil stability during storage by ¹H-NMR fingerprinting and chemometrics 283
- Design and in-house validation of a portable system for the determination of free acidity in virgin olive oil 287
- In house validated UHPLC protocol for the determination of the total hydroxytyrosol and tyrosol content in virgin olive oil fit for the purpose of the health claim introduced by the EC Regulation 432/2012 for "olive oil polyphenols" 290

Analytical solutions addressing olive oil authentication issues

- Olive oil mixtures. Part one: decisional trees or how to verify the olive oil percentage in declared blends 294
- Determination of vegetable oils in olive oil mixtures using a stepwise strategy based on ¹H-NMR fingerprinting and pattern recognition 297
- In-house validation of an SPE-GC-FID method for the detection of free and esterified hydroxylated minor compounds in virgin olive oils 300
- Large-scale evaluation of shotgun triacylglycerols profiling for the fast detection of olive oil adulteration 303
- Fatty acid ethyl esters in virgin olive oils: in-house validation of a revised method 306
- Olive oil mixtures. Part two: detection of soft deodorized oil in extra virgin olive oil through diacylglycerol determination. Relationship with free acidity 309
- Compliance with EU vs. extra-EU labelled geographical provenance in virgin olive oils: a rapid untargeted chromatographic approach based on volatile compounds 312
- Profiling versus fingerprinting analysis of sesquiterpene hydrocarbons for the geographical authentication of extra virgin olive oils 315
- ANNUNCI DI RICERCA PARTNER PER PROGETTI DI RICERCA ENTERPRISE EUROPE NETWORK (EEN) 320
- Notiziario - Notizie in breve, Congressi, Recensioni di libri 323
